

SEPTA's Mission

The Stafford County Special Education Parent Teacher Association (SEPTA) recognizes that every child deserves excellence in education and a quality life. SEPTA exists to promote the welfare of students who are differently abled, in home, school, and community; to raise the standards of school and home life and to secure adequate laws for the care and equal education of all students with disabilities.

2016-2017 Theme

The theme this school year is engagement with the school system focusing on being involved in what is important to a student's development and overall academic success and being aware of what is going on and learning the fundamental parts of the process. Engagement will provide fantastic opportunities for parents of children "differently abled" to learn more about Stafford County Public School (SCPS) resources.
